

September 25, 2017

To all clients of MDE International, Inc. and MDE Staffing Services, Inc.:

We are very pleased to inform you of the following news-

MDE International Inc., MDE Staffing Services Inc. and Kett Engineering Corporation have merged our collective operations into one, effective today September 25, 2017. From this date forward all of us will work as one team operated and managed under Kett Engineering Corporation.

This move brings to culmination the successful working relationship which our companies have enjoyed over the past several years and will create a very healthy and strong organization which singularly delivers to our clients the best of our combined services.

For those of you who may not be familiar with Kett you will be pleased to learn that they share many of the same core values, integrity and synergies as MDE with a sincere concern for the wellbeing of their employees and the complete satisfaction of their customers. Kett, founded in 1953, currently has approximately 550 employees working throughout the USA including CA, AZ, AK, CO, NV, NY and MN and its core management team has been working together for nearly 30 years.

Rest assured, it will be business as usual between MDE and our clients. No one from MDE is leaving nor will our services in any way be compromised, and this merger will not affect any programs we may currently be working on with you. In fact, we are excited to offer you an even greater array of quality and competitive services than ever before.

Over the next several days we will be reaching out to all of our clients to personally share this merger with you and address any questions you may have. In the interim however, please don't hesitate to call either Scott Koch or I if you should wish to speak together sooner.

I truly look forward to being a part of this new team which promises so many new and exciting opportunities ahead for our clients and employees alike.

As always, we appreciate your business past, present and future!

Sincerely-

Jeffrey B. Koch  
President  
MDE International, Inc.
